

NEWAL HUSSEN

Software Engineer | Full Stack Developer

✉ newahussen@gmail.com ☎ +251953187066 📍 Addis Ababa, Ethiopia

Summary

Software Engineer with experience building scalable web and mobile applications using modern technologies. Skilled in full-stack development, mobile application development, RESTful API integration, database design, and creating user-focused, production-ready solutions. Experienced in system architecture, problem-solving, and collaborating in remote and team-based environments to deliver reliable, maintainable software. Passionate about building impactful products and continuously learning new technologies to create high-quality digital experiences.

Education

Bachelor of Science in Computer Science and Engineering, Adama, Ethiopia
Adama Science and Technology University

Experience

Software Engineer, <i>Ministry of Innovation and Technology (intern)</i>	07/2025 – 03/2026
- Contributed to the design and development of a Hospital Management System to improve hospital operations and patient service delivery. - Developed responsive web application interfaces using Laravel, Blade, Tailwind CSS, JavaScript, PHP, and MySQL. - Built and maintained modules for patient management, appointments, doctor scheduling, medical records, and administrative workflows. - Developed a cross-platform Hospital Appointment mobile application using Flutter, enabling patients to book appointments, view doctor availability, and manage their healthcare visits. - Integrated RESTful APIs to connect the Flutter application with backend services, ensuring seamless data synchronization and a smooth user experience. - Implemented form validation, authentication, role-based access control, and CRUD functionality to ensure secure and efficient system operation. - Collaborated with team members to integrate frontend components with backend business logic and database systems. - Participated in debugging, testing, performance optimization, and Agile development practices to deliver reliable, high-quality software.	Piassa, Addis Ababa
Full Stack Developer, <i>Everlink Digital Technology (Intern)</i>	07/2024 – 10/2025
- Developed and maintained an advertising platform to help businesses showcase products and services through an organized digital presence. - Designed and implemented responsive web pages with a focus on usability, performance, and consistent user experience across devices. - Built dynamic features for managing advertisements, content, and user interactions based on project requirements. - Integrated frontend components with backend services to support efficient data handling and application functionality. - Improved website performance, structure, and maintainability through clean development practices and optimization. - Collaborated with stakeholders to understand business needs, implement requested features, and deliver solutions aligned with project goals.	Mexico, Addis Ababa

- Participated in testing, debugging, and continuous improvements to ensure a reliable and user-friendly application.

Mobile & Full-Stack Developer, *Dunya Tech*

09/2024 – 05/2025
Torhailoch,
Addis Ababa

- Developed and maintained full-stack applications, delivering scalable solutions aligned with business and user requirements.
- Designed and integrated RESTful APIs with secure authentication, request validation, and efficient communication between application components.
- Built responsive, user-friendly interfaces with a focus on usability, performance, and cross-platform compatibility.
- Implemented authentication, authorization, role-based access control, and CRUD functionality for secure application workflows.
- Optimized application performance, database operations, and backend processes to improve reliability and maintainability.
- Collaborated with cross-functional teams to analyze requirements, design solutions, and deliver new features throughout the development lifecycle.
- Participated in Agile development practices, including sprint planning, testing, debugging, code reviews, and continuous improvement initiatives.

Skills

Programming Languages

Dart, PHP, JavaScript, TypeScript, Python, SQL

Mobile Application Development

Flutter, React Native

Backend Development

Laravel, Node.js, RESTful APIs, Authentication & Authorization, Backend Integration, Database Design

Frontend Development:

React.js, Blade Templates, HTML5, CSS3, Tailwind CSS, Responsive Design

Additional Strengths

- Remote Team Collaboration
- Software Architecture & Scalability
- Problem Solving & Analytical Thinking
- Agile Development Workflows
- Technical Mentorship & Code Reviews
